What is this place?

It's the Bureau of Engraving and Printing.

They are making money! Where is it from?

It's a dollar bill. It's from the United States of America.

Be careful, Brownie!

It's OK. This paper is strong. It is 75% cotton and 25% linen.

So, it is made of cloth.

Yes, that's why it feels different than a normal paper.

It's so detailed! I like this design.

Look, there's a bird on it.

That bird is the bald eagle, right?

That's right. It's a national symbol of the U.S.

Don't worry, Brownie. You're safe here!
